

GRADUATE CERTIFICATE IN ENTERPRISE INFRASTRUCTURE

The Graduate Certificate in Enterprise Infrastructure is an offering of the University of Wisconsin online collaborative MS in Information Technology Management program. Coursework completed in the certificate applies toward the master's degree should a student choose to enroll as a degree-seeking student in the program, as well as a freestanding certificate program for non-degree (i.e., certificate only) students who may or may not wish to pursue the full MS-ITM degree following completion of the certificate.

This 100% online certificate focuses on the real-world application and practices that support the day-to-day technical operations of business function. You'll gain experience in data science, cloud computing, enterprise applications, risk management and cybersecurity. Prepare to feel more confident leading an IT team.

This certificate consists of the following three courses, 9 credits:

Code	Title	Hours
ITM 715	Data Science	3.00
ITM 720	Cloud Computing and Enterprise Applications	3.00
ITM 725	Enterprise Security	3.00
Total Hours		9.00
