

GRADUATE CERTIFICATE IN IT OPERATIONS

The Graduate Certificate in IT Operations is an offering of the University of Wisconsin online collaborative MS in Information Technology Management program. Coursework completed in the certificate applies toward the master's degree should a student choose to enroll as a degree-seeking student in the program, as well as a freestanding certificate program for non-degree (i.e., certificate only) students who may or may not wish to pursue the full MS-ITM degree following completion of the certificate.

This 100% online certificate was designed to focus on project management in the context of technology functions. It will help you build the skills you need to step into roles such as project manager, technical project manager, and senior IT project manager. Become a skilled leader in planning and implementing IT processes across organizations.

This certificate consists of the following three courses, 9 credits:

Code	Title	Hours
ITM 730	Agile and Traditional IT Project Management	3.00
ITM 735	Business Analysis and System Development	3.00
ITM 740	IT Operations	3.00
Total Hours		9.00
