# **UNIVERSITY STUDIES**

## Learning Goals for the University Studies Program

University Studies Requirements for 2024-2026 (https:// www.uwsuper.edu/academics/registrars-office/forms/)

The Learning outcomes of the University Studies Program at the University of Wisconsin-Superior are:

#### Communication

- 1. Students will apply modes, styles, and conventions of communication appropriate to the students' work and their audience.
- Students will identify the essential components of a work/ presentation and describe their relationship to each other and to the broader context.
- 3. Students will clearly express themselves to achieve a purpose.
- 4. Students will civilly engage in an exchange of ideas integrating diverse perspectives.

#### Individual and Social Responsibility

- 1. Students will engage in thoughtful analysis that fosters well-being and holistic self-development.
- 2. Students will articulate their roles and responsibilities in a global community.
- 3. Students will practice healthy interdependence and mutual respect for others through teamwork.
- 4. Students will demonstrate informed civic engagement, including intercultural competence as a dimension of the experience.
- 5. Students will apply ethical reasoning in the academic and community learning experiences.

#### **Creative and Critical Thinking**

- 1. Students will articulate important questions, theories, and creative processes.
- 2. Students will analyze information to answer specific questions.
- 3. Students will evaluate assumptions and biases associated with a project, practice, or process.
- 4. Students will consider multiple, diverse, and global perspectives to answer important questions or produce original work.
- 5. Students will use evidence to reach and present innovative conclusions or produce original work.

## Description of University Studies Core Categories

#### Academic and Professional Writing

(WRIT 102 Introduction to Academic Writing and WRIT 209 Introduction to Professional Writing)

Critical reading, research, and academic writing arguments. Emphasis on information literacy, elements of persuasion, documentation and citation. Writing in a range of genres related to the rhetorical situations, audiences, technologies, and multicultural environments of the 21st century workplace. Emphasis on liberal arts career skills. Students must pass with a C- or better to complete the core writing sequence.

#### **Communicating Arts**

(COMM 110 Introduction to Communication)

Helps students develop essential interpersonal communication, group communication, and public speaking competencies through practice, analysis, and critical exploration of diverse human interactions.

#### **Mathematics and Computer Science**

(MATH & CSCI)

Develops the skills necessary for analytical and quantitative problemsolving in all subjects, using central concepts and methods from mathematics and computer science, including number systems, symbolic representation, formal languages, mathematical modeling, and logical reasoning.

#### **Health and Human Performance**

(HHP 102 Foundations for Wellness and Success)

HHP 102 will supply foundational knowledge, understanding of critical thinking, and resources pertinent to academic and social success at UWS. Students will participate in group activities that enhance belonging and community. Students will learn content in areas, including emotional, social, mental, spiritual, physical, environmental, and occupational health and wellness.

## Description of University Studies Knowledge Categories Humanities

#### History

Enables students to recognize that reasoned interpretations of the human past must be consistent with verifiable historical evidence and are, nonetheless, contested as they are reshaped to serve the concerns of the present; and empowers students to create personal meaning by developing their own reasoned interpretations of the human past.

#### Literature

Instills the joy of reading literature; stimulates the power of the imagination; promotes the analysis of various types of literary expression; and explores different traditions and modes of telling stories.

#### World Language, Culture, and Philosophy

Encourages students to make connections across all areas of knowledge, different modes of communication, and diverse cultural, linguistic, and conceptual traditions; and encourages students to develop empathy and understanding for other cultural, linguistic, and conceptual traditions.

#### **Social Sciences**

Enables students to examine human behavior or interaction using the methods and assumptions of social science research.

#### Natural and Physical Science Environmental Course

Enables students to understand our natural environment and the effects of human interactions on it.

#### Lab Course

Enables students to understand the nature of science and scientific inquiry through hands-on experiences.

### **Fine and Applied Arts**

#### Fine Arts History, Criticism, and Appreciation

Helps students to analyze, evaluate, and relate artists, creative artifacts, and artistic productions of diverse cultures from ancient times to the present.

#### **Aesthetic Experience**

Gives students practical experience in developing their own creativity in one or more genres of expression, and augments appreciation for the diversity of creative communication.

## Description of University Studies Diversity & Global Awareness Categories

#### **Diversity Requirement**

Promotes understanding of issues arising from diversities such as racial, ethnic, linguistic, class, religious, rural/urban/suburban, gender, sexual orientation, abilities, and national origin.

### **Global Awareness Requirement**

Broadens students' horizons through exposure to perspectives from traditionally lesser studied regions and cultures (i.e., non-Eurocentric), and 2) Encourages students to see social, economic, cultural, and/or political connections among world regions.

## **University Studies Requirements**

All students entering UW-Superior as freshmen must complete the Core University Studies Requirements of WRIT 102 Introduction to Academic Writing and WRIT 209 Introduction to Professional Writing, COMM 110 Introduction to Communication, HHP 102 Foundations for Wellness and Success and their choice of MATH or CSCI among their first 60 credits. Failure to complete these courses by that time will result in a hold being placed on an ensuing registration that does not contain the missing course(s), which may not then be dropped. Students will only be able to register through the Registrar's Office (https://www.uwsuper.edu/ academics/registrars-office/) and enrollment in the missing course(s) must be included.

### **Core Requirements**

University Studies requirements, especially the core courses, should be taken early. Core courses strengthen reading, writing, public speaking, problem solving, analytical, and interpersonal skills. Core courses (WRIT 102 Introduction to Academic Writing and WRIT 209 Introduction to Professional Writing, COMM 110 Introduction to Communication, HHP 102 Foundations for Wellness and Success, and the MATH or CSCI course) cannot be applied or substituted for any major or minor requirement.

All core courses should be taken in the freshman and sophomore semesters: WRIT 102 Introduction to Academic Writing and WRIT 209 Introduction to Professional Writing taken sequentially in the first and second year; COMM 110 Introduction to Communication in the first year, MATH or CSCI started during the first year; HHP 102 Foundations for Wellness and Success in the first semester.

#### WRIT 102 Introduction to Academic Writing and WRIT 209 Introduction to Professional Writing (each 3 credits). Core Writing Course Placement

Placement into WRIT 099 Fundamentals of Writing: Fundamentals of Writing. This course prepares students for the challenge of reading and writing at the college level. This course must be taken within 30 credits.

Students must co-enroll in WRIT 102 Introduction to Academic Writing. Transfer students, see Transfer Student Policy below.

**Placement into WRIT 102 Introduction to Academic Writing.** Upon placement, this course should be taken in the freshman year, fall or spring. The course must be taken within 30 credits. Students must pass this course with a C- or better to continue on to WRIT 209 Introduction to Professional Writing or else be repeated until a C- is earned. Transfer students, see Transfer Student Policy below.

**Credit for Prior Learning in WRIT 102 Introduction to Academic Writing:** Students who earn a sufficient score on the WEPT are exempt from WRIT 102 Introduction to Academic Writing

Students with an AP Lang/Comp or AP Lit/Comp score of 3 or higher earn 3 credits for WRIT 209 Introduction to Professional Writing Students who earn a 50 or higher on the CLEP College Composition exam earn 3 credits for WRIT 209 Introduction to Professional Writing.

**Placement into WRIT 209 Introduction to Professional Writing.** With the completion of WRIT 102 Introduction to Academic Writing with a C- or better, this course should be taken in the sophomore year, fall or spring. The course must be taken within 60 credits. Students must pass this course with a C- or better to complete the Core Writing Courses. Transfer students, see Transfer Student Policy below.

**Transfer Student Policy for Core Writing Placement:** Students who arrive at UW-Superior with 3 credits of 100-level college writing completed at a C- or higher have satisfied the requirements for WRIT 102 Introduction to Academic Writing.

Students who arrive with 3 credits of 100- or 200-level college composition completed at a C- or high have satisfied the requirements for both WRIT 102 Introduction to Academic Writing and WRIT 209 Introduction to Professional Writing.

Some majors may still require WRIT 209 Introduction to Professional Writing if a Professional Writing course has not been completed.

#### Communicating Arts 110 (3 credits)

No student may take COMM 110 Introduction to Communication on a Pass-Fail basis.

#### Mathematics and Computer Science (3 credits)

Students must choose a minimum of three credits in MATH and/or CSCI courses from among these courses:

Code	Title	Hours
CSCI 101	Introduction to Computer Science	3.00
MATH 112	Introduction to Contemporary Mathematics	3.00
MATH 113	Algebra with Applications	3.00
MATH 115	Precalculus	5.00
MATH 130	Elementary Statistics	4.00
MATH 151	Calculus for Business, Life, and Social Sciences	3.00
MATH 240	Calculus and Analytic Geometry I	4.00

MATH 112 Introduction to Contemporary Mathematics, MATH 130 Elementary Statistics and CSCI 101 Introduction to Computer Science are recommended. For students with appropriate preparation, MATH 113 Algebra with Applications, MATH 115 Precalculus, MATH 151 Calculus for Business, Life, and Social Sciences, and MATH 240 Calculus and Analytic Geometry I are also recommended. Students are encouraged to work with a faculty advisor to select a course appropriate to their level of mathematical preparation, interests, and major field of study.

All students entering UW-Superior are required to take the Wisconsin Math Placement Test. Test results are used to determine which Mathematics and Computer Science courses students are eligible to take at that time. Students with insufficient preparation may become eligible to take more advanced Mathematics and Computer Science courses by completing one or more lower-level courses as indicated by the Math Placement Test results. Students placing into developmental level math (below 100-level) are expected to complete the developmental coursework before earning 30 credits.

#### Health and Human Performance 102 (3 credits)

All students must successfully complete HHP 102 Foundations for Wellness and Success or FYS 100 First-Year Seminar-Health Promotion/ Human Performance. Students with medical restrictions should contact the coordinator of HHP 102 Foundations for Wellness and Success before the first lab session. All Health and Human Performance department majors and minors must earn a grade of C or better in HHP 102 Foundations for Wellness and Success.

#### **Knowledge Categories**

The University Studies courses listed in the Knowledge Categories expose students to a broad array of concepts, perspectives and methodologies. They all integrate skills from the core courses into their content and require active engagement.

No more than six credits from any one program bearing the same prefix may be applied toward Knowledge Category requirements.

The credits given are the minimum for each category.
